CONSEQUENCES FOR ATHLETIC CODE VIOLATIONS

It is expected that if the code is violated student athletics will self refer. It is further expected that parents and other adults will refer when first hand knowledge of violations occur.

DISCIPLINARY ACTION

FIRST OFFENSE: Immediate suspension from either the current sport or the next sport, whichever is relevant. Suspension duration is 12 ½% of the allowable contests. This will be figured by the Athletic Director and rounded to the nearest whole number. Attendance during the suspension period is required.

SECOND OFFENSE: Immediate suspension from either the current sport season and/or the next sport, whichever is relevant. Suspension duration is 25% of the allowable contests. This will be figured by the Athletic Director and rounded to the nearest whole number. If suspension includes the remainder of the current season, no practice is permitted.

THIRD AND SUBSEQUENT OFFENSES: Immediate suspension for one calendar year from the date of suspension. No practice until suspension has been served.

For a violation consequence to be served:

- The sport season must be completed by the student/athlete.
- Board policy JGCDA includes a referral of violations to the district AODA – student assistance office when relevant.

CLARIFICATION: Any athlete in violation of alcohol, tobacco and other drug use/possession policies during school or at extra-curricular activities as a participant or spectator not only constitutes violation of the athletic code but also constitutes a violation of the Board Policy (JGCDA). Therefore, violators are subject to consequences spelled out in Policy JGCDA in addition to athletic code violation consequences.

Violators of the athletic code the nature of which involves alcohol, tobacco, or other drugs will be referred to the School District Student Assistance Program Director.

Self referrals for athletic code violations if and only if made for the purpose of obtaining assistance and not to avoid sanctions are welcome. If a referral is not pending (i.e., police report, coach referral) consequences are discretionary.
